KOMODO - INDONESIA

Dragons, Mantas and more!

from **\$4995***

Special Group Departure from Denpasar
16 - 22 August 2024

Join us on the voyage of a lifetime aboard the beautiful MY Indo Master to the remote and pristine reefs of Komodo - Indonesia.

Komodo National Park was established in 1980. Initially the main purpose of the Park was to conserve the unique Komodo Dragon and its habitat. The world's largest living lizard can grow over 3 metres and can weigh between 70-150 kilograms. Under the water, the Park has one of the richest marine environments including coral reefs, mangroves, seagrass beds, seamounts, and semi-enclosed bays.
